

# FIFTH INTERNATIONAL SYMPOSIUM ON ANALYTICAL METHODS IN PHILATELY

**AUTUMN 2023**

Sponsored by  
Institute for Analytical Philately, Inc.

## CALL FOR PAPERS

The Institute for Analytical Philately, Inc. invites you to present results of your scientific, engineering or mathematical research in philately at IAP's fifth international symposium. Please note the following criteria for acceptance:

- Papers must be previously unpublished and address how analyses were used to solve a philatelic problem.
- Technical studies of stamp characteristics (color, ink chemistry, paper, gum, etc.) and postal history are welcome.
- Studies that advance specific applicable methodologies are preferred.
- Preference will be given to new work rather than to continuations of previously published studies.
- A 2,500 – 6,000 word paper to be published in the proceedings volume will be due no later than June 30, 2023.
- A working title and two to three sentences on current or expected results should be submitted by 31 October 2021 to:

[Symposium@analyticalphilately.org](mailto:Symposium@analyticalphilately.org)

**Full-length papers will be published in a proceedings volume by the IAP**

Previously published proceedings volumes may be viewed or downloaded at:  
[www.analyticalphilately.org](http://www.analyticalphilately.org). Select "Symposia" from the menu at the left of the screen and follow the prompts. For questions about the fifth symposium contact any IAP board member at the email addresses on the website.
